DIE WELTLEITMESSE

IN HAMBURG

Vom 22. bis 25. September 2020 erwartet Sie das globale Branchentreffen der Windenergie: Die WindEnergy Hamburg, die weltweit größte Expo, sowie der führende globale Fachkongress, die WindEurope Conference, bilden gemeinsam den Global Wind Summit 2020; am gleichen Ort, zur gleichen Zeit!

35.000 Besucher aus über 100 Ländern.
65.000 m² in 9 Hallen.
1.400 Aussteller aus 40 Ländern.

Die #1 Weltleitmesse für Windenergie.

“Hamburg has become the place where the world’s wind industry meets every two years. The amount and diversity of participants is impressive and the scope for networking almost endless.”

Ben Backwell, CEO, Global Wind Energy Council

THE GLOBALLY LEADING TRADE FAIR IN HAMBURG

The globally leading fair for wind energy and the leading platform for the global wind energy industry. Throughout the four days of the wind expo, WindEnergy Hamburg, and the WindEurope Conference, the global leading expert congress, from the Global Wind Summit of 2018, is one event across two venues.

WindEnergy Hamburg reflects the multifaceted dynamics of the wind industry along the entire value chain. From planners, manufacturers, investors and service providers to onshore and offshore – regional industry representatives, young, innovative enterprises and giants of the industry come together to showcase the latest products and solutions at the WindEnergy Hamburg. A wide range of programs will provide a complete view of the wind energy sector.

Hamburg, 22 – 25 September 2020

The globally leading trade fair for wind energy.
EXHIBITORS
Top marks for new-customer acquisition, customer relations management, new business opportunities and trade fair atmosphere.

VISITORS
Top marks for knowledge transfer, market overviews, innovations and global contacts.

WindEurope Conference
Every year, the WindEurope Conference is a forum for dialogue and debate between the brightest and most influential voices in the wind industry. Renowned as the flagship conference for the wind industry, the WindEurope Conference is held every year in Europe. It is the event where the various parts of the wind industry such as technology & finance, policy & academia, market leaders & start-ups come together in the Global Wind Summit for a congress in Hamburg that today is global in perspective. Delegations from Asia, Africa, Russia and America join their European colleagues to share the best practices, exchange knowledge and create new business opportunities worldwide. The perfect setting for you!

Meeting point for international politics.
